For after hours emergencies, please contact the office number to be assisted by our after hours answering team

Maintenance Tips:

- Keeping a plunger on hand to take care of minor clogs. In order to keep the toilet from getting clogged, do not flush rags, paper towels, diapers, feminine products, etc. down the toilet.
- Know where the toilet’s water shut-off valve is (look behind the toilet). If the toilet begins to overflow, turn the water supply off immediately. This can prevent possible damage to your home. Once the water supply has been shut off, contact your management team or submit a maintenance request for the service.
- A toilet that runs constantly wastes water. If your toilet is running non-stop, contact your maintenance team immediately.
- Never put kitchen grease, coffee grounds, vegetable skins, fruit pits, or other items down the sink. Collect in a container and throw away in the trash.
- Clean up spills (even water) on flooring and carpet immediately before they soak in or cause damages.
- After bathing: (1) wipe moisture off of shower walls, shower doors, the bathtub and bathroom floor; (2) leave the bathroom door open until all moisture on the mirrors and bathroom walls and tile surfaces has dissipated; (3) hang up your towels and bath mats so they dry completely and (4) leave any bathroom fan on for at least thirty minutes after completion of activity.
- Run the Washer/Dryer and Dishwasher only when it is full to save water.
- Clean lint trap after each use and keep surrounding area clean and free of debris.

If no smoke is coming into the room you're in, open a window slightly both at the top and at the bottom. Stay low and wave a bright cloth, towel or sheet out the window to signal your location.
